

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : 7,185,787 B2
APPLICATION NO. : 10/775427
DATED : March 6, 2007
INVENTOR(S) : Robert L. Brown et al.

Page 1 of 1

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

At Columns 11 and 12, "claims 1-18," should be the following claims.

-- 1. A toy water gun system comprising:

a primary water gun having a housing, a pressurizable reservoir, an outlet nozzle in flow communication with the reservoir, and an actuating trigger, the primary toy water gun adapted to discharge an output stream of water through the outlet nozzle in response to actuation of the trigger;

the housing of the primary water gun further including a first receiving area and a second receiving area, each of the first and second receiving areas having an output port, the output port of the first receiving area in flow communication with the reservoir via a first conduit, the output port of the second receiving area in flow communication with the reservoir via a second conduit;

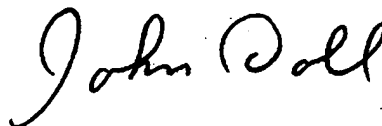

a first valve positioned to control flow through the first conduit;

a second valve positioned to control flow through the second conduit;

a first detachable water toy sized for mounting to the housing at the first receiving area, the first detachable water toy arranged to receive water from the reservoir via the output port of the first receiving area in response to operation of the first valve; and
